Our aim is that 8F1 students will have the following 'live' lessons and should be on-line and ready to start at the usual time for that lesson (unless you have been contacted by your teacher to adjust the time).

These live lessons are in place to allow students the opportunity to get feedback on work they have already completed and direction from their teacher on work they are due to complete before their next live lesson.

These live lessons will be your opportunity to ask your teacher directly any questions about the work you have found more difficult. Therefore, it is vital that you attend. I will be monitoring your attendance to your live lessons and hope that you take the opportunities given to you during this challenging time.

Please take care of yourselves and your families, work hard and let me know if you have any issues or concerns.
