

# Human papillomavirus (HPV) Vaccination consent form

The HPV vaccine that protects against several types of cancer is being offered to your child at school. To get the best protection, two doses are required. The second injection will be usually offered six to 12 months after the first. The school will let you know when the second dose will be given. The leaflet 'Your guide to the HPV vaccination' sent with this form includes more information about the vaccine. Please discuss this with your son or daughter, then complete this form and return it to the school before the vaccination is due. Information about the vaccinations will be put on your child's health records. If you have any questions, please contact the school immunisation nurse.
