Our aim is that 9M students will have the following 'live' lessons and should be on-line and ready to start at the usual time for that lesson (unless you have been contacted by your teacher to adjust the time).

These live lessons are in place to allow students the opportunity to get feedback on work they have already completed and direction from their teacher on work they are due to complete before their next live lesson.

Please ensure you attend the live lessons so you can ask questions on the work you have been set. I want to see as much engagement as possible. I will be checking in with all of you over the next few weeks and registering who is in the live lessons. This is your opportunity to take ownership of your independent learning, this will be essential when you study in Higher education settings. If you succeed now, you will set yourself up for a fantastic future career.

Please take care of yourselves, work hard and pace yourself. Let me know if you have any issues.
