Dear Parents and Carers

Going forward into an exciting new year, I wanted to write and reassure you that eradicating bullying remains one of our top priorities. We have put the following strategies in place as a sign of our commitment to ensuring that our students are happy and safe throughout their time at Southchurch High School:

- The Bullying QR Code - students can log all concerns and this is read daily
- Anti-bullying Ambassadors - a number of our students are proud to have completed a course which has empowered them to help their peers who may be concerned about bullying.
- Post Boxes - placed outside every year office are post boxes in which students can post any concerns that they may have.
- Anti-Bullying Alliance - Southchurch High School has just become a member of this fantastic organisation which will train our staff in the most effective ways to fight bullying and also offers advice and support to parents and carers.

I wanted to take this opportunity to reassure you of our intentions. We will not tolerate bullying of any kind; there is no place for bullying at Southchurch High.

Yours sincerely

Miss S Murray
Acting Deputy Headteacher
